We make events easy.

These tips can help you keep costs low for your next event:

1. **Get clear on fixed and variable costs.**
   Fixed costs won't change with your head count (marketing, venue and A/V fees). Variable costs (like catering) depend on the number of attendees. Getting clear on these costs will help you stay under budget, determine break-even points or calculate event ROI.

2. **Repurpose event space.**
   You have the room, so use it! Think about ways you can repurpose rooms throughout the event. You could reuse the general session room for a breakout session or a networking event, for example.
